## Publisher Correction: Ultra-fast germanium photodiode with 3-dB bandwidth of 265 GHz

S. Lischke , A. Peczek , J. S. Morgan , K. Sun, D. Steckler , Y. Yamamoto, F. Korndörfer, C. Mai , S. Marschmeyer, M. Fraschke, A. Krüger, A. Beling and L. Zimmermann 

Correction to: *Nature Photonics* <https://doi.org/10.1038/s41566-021-00893-w>, published online 18 November 2021.

In the version of article initially published, there were errors in the caption to Fig. 1. In the text now reading “**d**, Finally, an (undoped) germanium fin is realized...” caption letter d has been included. In the text now reading “**e**, Cross-sectional image, obtained by STEM, of a germanium photodiode (termed Ge100\_10) that features in situ-doped (different colours for p- and n-doping) silicon contact regions (**f**) and an EDX image of the same device,” caption letter f replaces the original letter “**e**.”

The errors have been corrected in the html and PDF versions of the article.
